DETAILED ACTION

Drawings

Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear to the examiner how the recitation of the article structure in dependent claim 6 is further limited by the method steps of independent claim 1.

Allowable Subject Matter

Claims 1-5 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or

Art Unit: 2873

103 would be proper. The prior art fails to teach a method of centering a liquid drop on a surface via a channel or depression formed in the surface as claimed in independent claim 1.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kroupenine et al (USPNs 6545815 and 6545816) and Berge et al (USPN 6369954) teach liquid microlenses.
